teamMarine is a modern software solution for boat dealers that lets them better manage sales and service for their dealership. Built on the Salesforce platform, the world's most popular sales CRM, teamMarine includes the following capabilities:

1. **Customer Relationship Management (CRM)**
2. **Sales Automation** (lead tracking, price quotes, sales contracts, pipeline management, round robin lead assignment, activity tracking, automated tasks & reminders)
3. **Inventory Management** (website/BoatWizard integrations, price sheets, boat boards, window stickers, Digital Showroom)
4. **Service Management** (work orders, parts tickets, purchase orders, parts inventory management, service scheduling)
